Specifically all of the
Commission of Hosty's name
[illegible] does not check up because
by the date he assigned
Kessler (11/4/63) There was
a Warren Commission. It
is the Commission, not
Specifically, who had to
know names

In any event, of the
papers for "Lead"
material, Hosty's name
with HO's possession
certainly was a hot
"lead."

We shall now check to see
if this "Lead" memo
actually contains "leads."
Like all of the phrases
listed in O's book.
